Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 March 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

This is the final Office Action for the serial number 10/797,896, DUCT HOLDER, filed on 3/10/04.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by
US Patent # 5,221,064 to Hodges.

Hodges teaches holder (figure 1) comprising a main body (38) having a generally U-shaped configuration and a central channel (42) extending therethrough and an upright support member (18) secured to a bottom of the main body. The upright support member being configured for securing to a structural member. The support member is provided with a plurality of openings (24) to allow attaching of the support member to a structural member (14). The main body has a generally arcuate configuration. The support member has a pair of telescopically (20 and 22) engaging parts to allow extension of the support member to a desired elevation. The support member has elongated body (a block that provides two holes, 24).

Response to Arguments

Art Unit: 3632

Applicant's arguments filed 1/10/06 have been fully considered but they are not persuasive.

The applicant argues, "Hodges discloses that the second section 22 of the hanger rod 18 is either rigidly attached to the yoke (col. 2, lines 62-64) or pivotally secured (not shown in the drawings) to the yoke (col. 3, lines 25-31). Pivotal movement of a constricted duct is not the same as a free rotational movement of the main body as contemplated by the instant invention." The examiner disagrees with the applicant regarding limited pivotal movement of the rod to the yoke because in specification (col. 3, line 28) of Hodges's invention states that "By pivoting the yoke 38 about the hanger rod 18, the pipe hanger can be used to suspend pipe from a joist where the pipe does not run parallel or perpendicular to the joist." Since Hodges cited the term of "about", which means the yoke is able of rotating in vertical axis of hanger rod.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3632

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
